

A PRESTIGIOUS LINE OF CUSTOM CRAFTED FENDER ACOUSTIC GUITARS

SPRING HILL, TENNESSEE U. S. A.

Congratulations

We are pleased that you have selected one of our fine quality instruments. Each day the artisans of Spring Hill face the challenge of taking solid pieces of wood and handcrafting them into instruments that are the ultimate in sound and beauty. Each guitar reflects the unparalleled results of that challenge. Crafted of the finest woods, Spring Hill demonstrates the classic beauty, natural acoustic sound and playability that are unchallenged. As a result, you are assured of receiving an instrument of superior quality, lasting beauty and exceptional playability.

STRINGING

To fasten a string on the machine head and prevent slipping, follow the winding directions illustrated:

Winding Direction

Left Side

Right Side

Be sure to allow enough slack so the string can wrap around the peg about three times before proper tuning is achieved. If you can lift the string about 3 or 4 inches from the fingerboard, at the middle of the neck when the string is first strung, there should be adequate slack for proper tightening.

Fresh strings add to the enjoyment and tonal qualities of your guitar. Change them often using Fender acoustic strings.

TRUSS ROD

Each Fender guitar is carefully adjusted by skilled artisans. The truss rod and string height are set for optimum action and playability.

Under normal tension, the neck should have a slightly concave curvature. By creating a counteracting force, the truss rod prevents the neck from bending excessively under the stress placed on it by the strings. The tension on the rod is adjustable so the correct curvature can be achieved by regulating the neck's resistance to the string tension. Your Fender dealer is equipped to adjust the trust rod in the event such adjustment is required.

CARE OF YOUR GUITAR

After you have finished playing, thoroughly wipe the entire guitar, including the strings, with a clean, soft cloth. A regular routine for cleaning your instrument with Fender polish is recommended.

Avoid exposing the guitar to any chemical or substance that might mar the finish, as well as, to direct sunlight or other sources of excessive heat humidity or shock.

It is important to avoid sudden changes in temperature since this causes the wood to expand or contract faster than the finish which may result in checking. While the condition does not affect the tone, it does mar the appearance.

When storing the guitar for long periods of time, loosen the strings - but leave them attached.

LIFETIME LIMITED WARRANTY

This Fender Spring Hill Lifetime Limited Warranty covering defects in materials and workmanship begins at the date of original purchase from an authorized Fender dealer and lasts for the lifetime of the guitar. This warranty is limited to the original retail purchaser. **IMPORTANT:** Please retain your SALES RECEIPT, as it is your proof of purchase covering your Lifetime Limited Warranty and must be presented to obtain warranty service.

Electronic components used in certain models, tuning machines, and case hardware covered by this warranty are warranted for a period of one year from the date of original instrument purchase.

All transportation, insurance and freight charges associated with warranty service and repairs on Fender guitars are the responsibility of the purchaser, as is any service initiated for the purpose of customizing adjustments beyond standard factory specifications. Standard setup and adjustment of the instrument and its components is considered normal dealer preparation.

The following items and conditions are excluded from coverage under this warranty:

1. Frets, strings, and batteries.
2. Splits, cracks, or warpage in the body or neck due to exposure to sun, moisture, or conditions of excessive or deficient temperature and/or humidity.
3. Finish or wood defects due to usage wear and normal aging or damage due to accidents, abuse, neglect, or acts of God.

4. Instruments which have been modified in any way or serviced by persons not authorized by Fender, or which have had their serial number defaced, altered, or removed.
5. Finish, wood or component defects resulting from the application of polishes, compounds, or chemicals not supplied with the instrument.
6. Case wear and tear.

Fender assumes no liability for property damage resulting from failure of this product nor for any loss of income, satisfaction, or damages arising from loss of use of same due to defects or availability of same during service. Any warranties implied by law (including warranties of merchantability or fitness) are limited to the duration of this express limited warranty. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you. Some states do not allow the exclusion or limitations of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

In the event your guitar requires servicing, please contact the dealer where the original retail purchase was made or your local Fender Authorized Guitar Service Center. If you have any questions, you may contact the Fender Product Service Department for instructions and information as to how such warranty repairs or servicing can be obtained.
