Your selection of a Fender amplifier will be rewarded with years of quality music in a wide range of controlled sounds.

This manual is designed to familiarize you with the equipment and acquaint you with its many fine features. Read it carefully so that you will benefit from all of the features as soon as you start using the amplifier.

The Warranty Card is contained in the back section of this manual. Be sure to fill in and mail the Warranty Card to extend your warranty to a full year.

FRONT PANEL FUNCTIONS

NORMAL CHANNEL

INPUT JACKS
Jack No. 1 for use when one instrument is used. Jack No. 2 for use with second instrument or equipment with high output level.

VOLUME CONTROL
Volume setting from zero to full power output.

TONE CONTROLS
Treble Control - Provides additional high frequencies as required.
Bass Control - Regulates desired amount of bass response.

VIBRATO CHANNEL

INPUT JACKS
Jack No. 1 for use when one instrument is used. Jack No. 2 for use with second instrument or equipment with high output level.

VOLUME CONTROL
Volume setting from zero to full power output.

TONE CONTROLS
Treble Control - Provides additional high frequencies as required.
Bass Control - Regulates desired amount of bass response.

REVERB CONTROL
Selects the amount of reverberation.

SPEED, VIBRATO CONTROL
Regulates the rapidity of the vibrato effect - variable from slow to extremely fast setting.

INTENSITY, VIBRATO CONTROL
Increases or decreases the vibrato effect.

REAR PANEL FUNCTIONS

A.C. ACCESSORY OUTLET
(110-120 V AC, 60 Hz) (Load Limit 200 Watts) This socket is provided as a convenience to be used for any A.C. accessory.

GROUND SWITCH
Gives player control of polarity. Position on each side is ground to each side of the A.C. line respectively. The center position disconnects all but the third line chassis ground. Try each position to find the minimum hum.

FUSE
Caution - Disconnect amplifier A.C. plug from outlet before changing fuse. Remove fuse by pressing in and unscrewing cap. Use fuse type specified on chassis back plate.

ON/OFF SWITCH
Turns amplifier on and off.

STANDBY SWITCH
Allows tube filaments to remain heated during standby periods. Amplification is instantly available without warm-up time. No danger of unwanted sound when in quiet periods.

SPEAKER JACK
Connects internal speakers to amplifier.

EXTENSION SPEAKER JACK
Provides a connection to an extension speaker enclosure.

CONNECTIONS (4)
Vibrato and reverb jacks.

CORRECTIVE CHECK LIST

If your amp is set up but does not function, check the following items:
Is the amp power supply cable plugged into the wall?
Is there power at the wall outlet where the amp is plugged in?
Is the speaker plugged into the amplifier speaker jack?
Are the tone control knobs turned up above 4?
Is the volume control on your instrument turned up?
Is the fuse good?

If, after checking all of the above, the system is still not performing correctly, consult your authorized Fender Service Dealer.

ACCESSORIES

GUITAR THRONE

VOLUME PEDAL
Controls volume level with smooth up and down action.

TONE AND VOLUME PEDAL
Controls tone response and overall volume with one pedal. Side to side action for tone control, up and down action for volume control.

FUZZ WAH PEDAL
Wah Pedal with built-in fuzz effect. Maximum control over degree of fuzz and wah. On/off switch for both fuzz and wah. Attractive and durable.

FENDER BLENDER
Fuzz and sustain unit for sound modification. Blends and sustains tone to any pre-set level.
FENDER AMPLIFIER COVERS
Waterproof, tear and abrasion-resistant amplifier covers are available for every Fender amp. They prevent surface damage to the amplifier and keep out dust. Lined with soft flannel, these black vinyl covers feature the amplifier model name and Fender trademark.

FENDER AMPLIFIER FIBER CASES
For those desiring the utmost in amplifier protection, Fender offers a case to completely house each amp. These cases are of .060” fiber, have nickel plated corners, and protect the amp from rough treatment. All have heavy-duty handles on the top, and those fitting the larger amps have handles on both ends. Cases are available with or without swivel casters.
GUITARS

6 independent bridge sections for perfect string adjustment
Exclusive Fender contoured waist design for maximum playing comfort

MUSICMASTER
Available with ¾ or full-length fast action neck for easy playing
3 individually adjustable bridge sections assure perfect string intonation and custom playing action
WARRANTY

Fender Musical Instruments warrants this product to be free from defects in materials and workmanship for a period of one year from date of purchase. The warranty herein extends only to the original purchaser at retail of a new product. This warranty shall not apply to products purchased from anyone other than an authorized Fender dealer, or to products which have been subject to alteration, misuse, accident, neglect (such as extremes of temperature and/or moisture), or to wear resulting from normal usage.

The warranty herein becomes effective upon receipt of the completed attached owner registration card within ten (10) days after date of purchase. Upon its receipt the owner will be sent a personalized Fender warranty identification card. Presentation of the card within the warranty period will entitle the owner to receive authorized service and repair from any authorized Fender dealer. Such service and repair shall include all labor and materials necessary to make the repairs and replacements covered under the terms of this warranty.

If the product must be returned to the factory service center for repair, it must be accompanied by an authorized Fender dealer's written direction to such effect and a Fender shipping label. Transportation charges to and from the service center shall be borne by the owner unless otherwise specified by law. This warranty is expressly in lieu of all other agreements and warranties, express or implied, except as may be otherwise required by law.
